

Message from the Area Director, Area 02, District 25.

I congratulate the Zonta Club Presidents and members of Zonta International, Area 02, Dist. 25 under the biennium 2016-2018.

Like all global organizations Zonta can only be strong at its local units – **the Clubs**. The value of Zonta’s work in the area will depend on service projects, advocacy actions, leadership development, having efficient and skilled members, getting appropriate candidates for International educational scholarship programs and fund raising for local and international projects. The service projects and advocacy actions will cover issues like combating violence against women, improving, maternal health, having education programs for adolescent girls and skills development for earning an income. The members will work through different committees and the responsibilities of carrying out the tasks are all geared towards **Empowerment of Women**.

We also need to bring equality between men and women. Because this is an effort that has to be made anytime and anywhere. (Goal 05).

The clubs can implement plans into actions either through individual club projects/ programs or partnering with similar organizations like Govt., NGOs & UN.

The challenges are many and have to be well illustrated by the impressive work that the clubs under Area 02, District 25 will do for **Empowering Women – Together**.

Yours in Zonta Service  
**Munira Afza Naim**  
Zonta International  
Area Director  
Area 02, Dist 25
